

Welding machine (MIG – MAG)

Ref. 016354

IMS MIG DUO 20/15

IDEAL FOR CAR BODY WORKSHOPS, WITH ITS INCORPORATED DOUBLE WIRE FEEDER, THE IMS MIG DUO 20/15 HAS BEEN DESIGNED FOR A MULTIPURPOSE USE :

- Either for the braze welding of HTS/UHTS/UHLE steels
- Or for the welding of ALUMINIUM on professional works with wires Ø0.8 to 1mm

CHARACTERISTICS

- ✓ Wire welding machine, including 2 torches, 2 wire feeders, 2 driving motors with 4 wire guide rollers
- ✓ ALU MIG welding function
- ✓ MIG braze welding function (HTS/UHTS/UHLE steels)
- ✓ Spot welding timer :
 - SPOT button, welding time adjustment
 - DELAY button, break time adjustment
- ✓ Bottle support until 4m3
- ✓ Designed for wire reels Ø200mm to 300mm

MADE in FRANCE

ASSETS

This excellent quality device is the answer to all your welding issues.

Designed for the use of 2 different types of wire, he will give you whole satisfaction in the use of brazing wires, cupro silicium or cupro aluminium, essential for new galvanized metal sheets and in the use of aluminium wires, for the welding of aluminium metal sheets $\geq 0.9\text{mm}$.

Ready-to-use, this innovating device avoids any waste of time to change wire reels or gas bottles.

Ref. 016354 : delivered with 2 torches 150A-3m, earth clamp and 1 manometer.
