

ELECTRODE WELDING UNIT (MMA)

Réf. 031241

IMS 1305 INVERTER

MMA - TIG LIFT ARC

10 ▶ 130A - Ø electrodes 1.6 ▶ 3.2 mm

Direct Current welding

Single phase 230V -16A

The IMS 1305 offers amazing performances from such a small product: it is highly effective with rutile, basic, stainless steel and cast iron electrodes.

- **INVERTER** welding machine with micro processor control.
- **Digital display** and electronic control through touchpad:
- **MMA**: the welding arc dynamic is revolutionary and unique in its category as in addition to Arc Force and Anti Sticking, this product also offers an adjustable Hot Start.
- **TIG LIFT-ARC**: the microcontroller TIG Lift Arc feature makes TIG ignition much easier.
- The product is also designed to work with power generators, and to compensate for power supply variations (+/-15%).
- The product is delivered in a plastic case and with accessories: earth clamp and electrode holder.
